RANGE, OVEN & COOKTOP COLLECTION ...

BRING *Italy* HOME

# EuroChef USA

EuroChef USA is the national importer of Fine European and Internationally recognized appliance brands including the Verona® brand of quality cooking appliances.

The EuroChef family offers innovative Italian crafted ranges, built-in ovens and cooktops that provide professional cooking experiences through exquisitely designed pieces. EuroChef USA has been distributing quality European appliances that are both durable and beautiful since 2001.

Our mission at EuroChef is to provide product excellence and customer service of the highest quality and value. We strive to continue delivering friendly service on a timely basis with a sense of personal pride to our customers.

EuroChef is proud to offer the Verona collection of classically designed Italian appliances to North American consumers. The Verona collection has been designed and manufactured in the suburbs of Venice, Italy since 1958 with standards of quality unsurpassed in the industry. Verona ranges, ovens and cooktops offer professional cooking and luxury that enhance the beauty and quality of kitchens everywhere.

# RANGES

In the true Italian artisan tradition, Verona gives you the best Pro Style residential range. High efficiency sealed gas burners deliver pinpoint accuracy and flame control as the burner heads are mounted close to the cooking surface to deliver better heat transfer and distribution. High output double and triple ring burners provide even heat across the bottom of the cooking utensil. As a result, foods cook quickly with less fuel than standard burners.

All Verona Ranges are equipped with a flame failure safety device which shuts off the gas flow in the event the flame is extinguished. This safety feature is not found on domestic models but is standard equipment on all Verona ranges. European convection ovens with a third fan element pre-heat the circulated air in the oven cavity to achieve consistent temperatures with no flavor transfer for superlative results.

## Standard Features of a Verona Range

Verona appliances embody the quality, authenticity and tradition that make Italian cooking loved the world over. The professional performance of Verona finds a perfect fit in any kitchen. Verona ranges come in a multiple of sizes and are available in gas, electric and dual-fuel options. Verona ranges also come in multiple configurations – single oven, double oven – and a variety of colors. Plus, Verona is the only brand to offer side-by-side double ovens in a 36-inch range.

# Unique Features of a Verona Classic Range

The Verona Classic Collection incorporates all of the same technical features as the original Verona series with a new, stylized look and high-end upgrades. Verona Classic is a new series of 36" professional ranges with contemporary lines and details that combine the very best of industrial design and cooking performance. Offered in stainless steel, matte black and gloss red, the Verona Classic models feature a sleek plinth leg, matching colored control panel, exquisite beveled front plus stainless handles and handrail.

Induction technology offers the fastest and most responsive cooking surface available. It is also the most child safe, because the surface heats only when activated by metal, and the glass does not heat like a traditional electric burner.

## WARRANTY

All Verona Ranges, ovens and select cooktops are covered by a (2) two-year warranty for parts and labor. All 12-inch cooktops are covered by a (90) ninety day limited warranty. Verona products are not intended for commercial installation. Warranty is void in any commercial-type application. Changes to the product may have occurred after this catalogue was printed. Please obtain current installation information for your model before rough-ins and final installation. Check your local municipalities for installation codes.

Most areas require a licensed plumber or gas fitter and/or electrician for proper installation.
